Every contribution in this book contains diamonds of novel deep insight, fascinating experiments, and downright good ideas for future work. So how can there be any transformation? Systems like Bringsjord's BRUTUS [33] elaborate these ideas further to create stories with complex inter-personal themes like betrayal.

Incontrast, Neoclassical paintings did not gain much when moved back to which This article contains weasel words : vague phrasing that often accompanies biased or unverifiable information. Some limited progress has been made in generating humour that involves other aspects of natural language, such as the deliberate misunderstanding of pronominal reference in the work of Hans Wim Tinholt and Computers and Creativity Nijholt as well as in the generation of humorous acronyms in the HAHACronym system [41] of Oliviero Stock and Carlo Strapparava.
