So, I did not wake up one morning, suddenly speaking French and English while also knowing the history and literature of these languages. So, since the French language can do everything that English can in the formal world, such as instructions, scientific writings and simple communication, but can also go to greater depth to touch humans deeper through its subtlety in timbre and sound embedded in a history of great poets, philosophers and thinkers who set their mark in marble and stone, I would have to say that the French language is superior to English. Consequences of Pragmatism: Essays, -
