Note: As facilitator it will take you a while to measure and note scores for lots of guesses, so think how best to do. We can bloody well make a difference. William Blake English poet, painter and mystic.

This is a simple and adaptable exercise which can be used to explore various things. Does a bullet fired straight up into the air take longer to go up or to come down, or the same time, and why? For example a mature adult group could be asked to use the coins from their own pockets and purses. Be careful to phrase questions to allow only one answer wherever possible.

Heather E. The local library is your friend. Versions of the 'Iceberg' may be mapped according to different perspectives, for example - how people see it currently; how they'd prefer it to be; from a personal, departmental or workforce standpoints. The purpose of the exercise is to encourage people to get to know each other better, to collectively consider the nature of all individuals within the team, and to think of each other in ways that are quite different to how people tend usually to classify .
